Design

Imran Khan has achieved a position of Prime Minister after a lot of struggle, he is an inspiration to never lose hope. The page is designed in a way to show how important Imran Khan is for Pakistan. The page has a background colour is sage coloured (greyish green). This is because the flag of Pakistan is green representing Islam and the majority Muslims in Pakistan. The white body of content of the page represents the white section of the Pakistan Flag which represents religious minorities and minority religions. The navigation has designed with the party Flag of Imran Khan and Imran Khan himself. The picture in the navigation also has a quote which Imran Khan always say about his land and country. Below the picture in the navigation there is the main heading of pages which is also the navigation heading, this section is darker sage colour which goes well with the background colour and white writing on top to make it visible to read. The footer has three columns, about us, contact us and reference and a background colour of darker sage which is same as the navigation heading. The link on the footer is blue for better visual.
